**National Priorities Addressed**

Issue Questions	Responses
Healthy Plant & Animal Communities - Wildlife Habitat Conservation – Will the proposed project assist the applicant to:	
1. a. Retain wildlife and plant benefits on land exiting the Conservation Reserve Program?	Yes <input type="radio"/> or No <input type="radio"/>
1. b. Address and support one of the following priorities: Mississippi River Basin Healthy Watersheds Initiative (MRBI), North American Waterfowl Management Plan, National Fish Habitat Action Plan, Greater Sage Grouse Conservation Strategy, State Comprehensive Wildlife Conservation Strategies (also referred to as the State Wildlife Action Plans), Northern Bobwhite Conservation Initiative, Restoration of Longleaf Pine Forests	Yes <input type="radio"/> or No <input type="radio"/>
1. c. Benefit federally listed threatened and endangered, at-risk, candidate, fish or wildlife species of concern?	Yes <input type="radio"/> or No <input type="radio"/>
1. d. Benefit prioritized native habitat critical to a fish or wildlife species?	Yes <input type="radio"/> or No <input type="radio"/>
1. e. Increase, improve or establish pollinator habitat?	Yes <input type="radio"/> or No <input type="radio"/>
1. f. Eradicate or control prioritized noxious or invasive species?	Yes <input type="radio"/> or No <input type="radio"/>
1. g. Benefit declining or important aquatic wildlife species prioritized in the State WHIP Plan?	Yes <input type="radio"/> or No <input type="radio"/>
1. h. Implement conservation practices which benefit prioritized fish or wildlife species in forested areas?	Yes <input type="radio"/> or No <input type="radio"/>
1. i. Establish habitat on pivot corners and irregular areas on agricultural land?	Yes <input type="radio"/> or No <input type="radio"/>
1. j. Provide self-sustaining habitat for prioritized fish and wildlife while reducing net carbon emissions or boosting carbon storage (e.g., warm season perennial grasses, trees or shrubs)?	Yes <input type="radio"/> or No <input type="radio"/>
Business Lines – Conservation Implementation - Additional Ranking Considerations – Will the applicant in the proposed project:	
2. a. Complete habitat development within the first two years of the agreement?	Yes <input type="radio"/> or No <input type="radio"/>

**State Issues Addressed**

Issue Questions	Responses
1. Only answer one of questions 1-4 if appropriate. Are there at least 3 Partners (not including the participant or NRCS) contributing dollars for the project?	Yes <input type="radio"/> or No <input type="radio"/>
2. Only answer one of questions 1-4 if appropriate. Are there 2 Partners (not including the participant or NRCS) contributing dollars for the project?	Yes <input type="radio"/> or No <input type="radio"/>
3. Only answer one of questions 1-4 if appropriate. Is there only 1 Partner (not including the participant or NRCS) contributing dollars for the project?	Yes <input type="radio"/> or No <input type="radio"/>
4. Only answer one of questions 1-4 if appropriate. Are there partners (not including the participant or NRCS) contributing in-kind match only?	Yes <input type="radio"/> or No <input type="radio"/>
5. Only answer one of questions 5 or 6 if appropriate. Is this a group type application involving at least 3 different land owners applying similar practices for the same targeted species?	Yes <input type="radio"/> or No <input type="radio"/>
6. Only answer one of questions 5 or 6 if appropriate. Is this a group type application involving 2 different land owners applying similar practices for the same targeted species?	Yes <input type="radio"/> or No <input type="radio"/>
7. Only answer one of questions 7-9 if appropriate. Will the project result in a minimum increase in the Wildlife Habitat Index (WHI) of .5 or greater for the targeted species? (to calculate WHI use species models in biology tech note #40, or, if a model is not available for the targeted species use the Colorado Wildlife Habitat	Yes <input type="radio"/> or No <input type="radio"/>

Evaluation Guide (WHEG)), or, result in a minimum increase in the Stream Visual Assessment Protocol 2 (SVAP2) score of 5 or greater.	
8. Only answer one of questions 7-9 if appropriate. Will the project result in a minimum increase in the Wildlife Habitat Index (WHI) between .3 and .49 for the targeted species? (to calculate WHI use species models in biology tech note #40, or, if a model is not available for the targeted species use the Colorado Wildlife Habitat Evaluation Guide (WHEG)), or, result in a minimum increase in the Stream Visual Assessment Protocol 2 (SVAP2) score of between 3 and 4.9.	Yes <input type="radio"/> or No <input type="radio"/>
9. Only answer one of questions 7-9 if appropriate. Will the project result in a minimum increase in the Wildlife Habitat Index (WHI) between .1 and .29 for the targeted species? (to calculate WHI use species models in biology tech note #40, or, if a model is not available for the targeted species use the Colorado Wildlife Habitat Evaluation Guide (WHEG)), or, result in a minimum increase in the Stream Visual Assessment Protocol 2 (SVAP2) score of between 1 and 2.9.	Yes <input type="radio"/> or No <input type="radio"/>

#### Local Issues Addressed

Issue Questions	Responses
1. Will the project improve or restore 20 or more acres of riparian habitat?	Yes <input type="radio"/> or No <input type="radio"/>
2. Is the project on average greater than 1/4 mile (measured from the center of the project area to the nearest point of disturbance) from an occupied dwelling or other area of high disturbance such as a busy highway, heavily used recreation area etc.?	Yes <input type="radio"/> or No <input type="radio"/>
3. Will the project include a prescribed grazing plan that will result in improvement of the riparian condition for the targeted wildlife species?	Yes <input type="radio"/> or No <input type="radio"/>
4. Will the project provide livestock watering out of the riparian area, or provide limited access to water with the use of water gaps and /or stream crossings designed to limit livestock access to stream banks.	Yes <input type="radio"/> or No <input type="radio"/>
5. Will the project provide for riparian habitat improvement without construction of additional fences?	Yes <input type="radio"/> or No <input type="radio"/>
6. If the project includes fencing, will fences be designed to be wildlife friendly as describe in NRCS Fence Standard and Specification 382?	Yes <input type="radio"/> or No <input type="radio"/>
7. If the project site has the potential for native riparian woody vegetation, will the project provide for restoration or enhancement of native riparian woody vegetation?	Yes <input type="radio"/> or No <input type="radio"/>
8. Is a primary purpose of the project to provide brood rearing habitat for Gunnison's or greater sage grouse?	Yes <input type="radio"/> or No <input type="radio"/>
